Questions & Answers

As of September 18, 2020

1. Question: On position 3 under Item Description Laptop LENOVO 81AX00N6YA you wrote additional minimum requirements for equal laptop

“Screen: 15.6, 1920 x1080; Intel Core i3, 8130U, 2.2GHz (Turbo up to 3.4GHz) Graphics: AMD Radeon 530, 4GB HD: 1TB, brand name or equal”

Can you confirm that minimum requirements for this Laptop is AMD Radeon 530 graphic card with 2GB of GDDR5 RAM?

Answer: No. The minimum requirement is 4GB of RAM.

2. Question: Can you confirm that 4GB under minimal “Graphic” requirements is actually minimal requirements for system RAM memory?

Answer: Yes, 4GB is minimum requirement for system RAM memory.

3. Question: Will 10th generation of Intel i3 CPU be accepted? Since 10th generation does not meet minimal frequency (clock speed) requirements but is significantly better and faster than the 8th generation.

Answer: Yes, if the RAM memory is at least 4GB.
